

Guidance for New High Sensitivity Troponin T Assay:
When to Call Cardiology

Troponin > 14ng/L (female)
Troponin > 22 ng/L (male)

Active chest pain,
myocardial
ischemia, or 20%
increase in HS
Trop T, suggestive
of **type 1 NSTEMI**

Cardiology
consult

Troponin > 75ng/L (female)
Troponin >100ng/L (male)

With clinical
concern for type 1
NSTEMI:
Cardiology/CICU
Consult
